

2012 POST RACE BUZZ

Thank you for putting together a great race. The course was marked well (I did the 50k), and the volunteers at aid stations were beyond great. I plan on participating again!

The race was awesome...even if I am pretty sore today.

Thanks again for such a great race yesterday! The course was so beautiful.

I wanted to thank you and all your volunteers for the extra fun race day. Sitting at the finish line for a few hours afterward one common theme emerged, these are tough courses but it seems this is exactly why people are coming from all over to tackle and challenge the course and distances.

I just wanted to say thank you for putting on such a great race. Saturday was my first 50k and I loved it! The course was a fun mix of climbs, downhills and fast flats.

I wanted to say Thank You for a great race weekend. I ran the 50k (it was my first ultra EVER!) and I was greatly impressed with the layout of the course, the amazing volunteers, the well stocked aid stations, and just an overall amazing atmosphere. I appreciate all of the hard work everyone put in and I look forward to the next one!

Thanks for all your work in putting on a great race this past weekend. Karen and I had a blast, and we really appreciate all the time and effort you put into the Elkhorn runs. It was particularly special for me, as I ran the 100 km many times and was there for the inaugural in 1989. The course was awesome, the markings superb, volunteer and aid stations super great; just an all-around great event. Thanks again and we'll see you next year.

It was a great event! I told my friends in Cali, if they want a tough 50 miler, they should do HURL :)

Nice work on the race. The course was a monster, super challenging, which made it more rewarding.

I wanted to send my sincere thanks to all of the volunteers and everyone who helped out behind the scenes. The volunteers were great and speaking for myself and I am sure others, the wonderful volunteers keep us going. It is a long day out there and the enthusiasm and support from the volunteers is an amazing energy booster. So thanks to all of you for your hard work - you do an amazing job!

Thank you again for organizing such a fantastic race! It was beautiful, incredibly well organized and all the volunteers were lovely. I especially wanted to pass on thanks to the folks at the last aid station. I came in there sad and discouraged (it was obvious I wasn't going to make the 16 hour cutoff). They were so positive and encouraging that I had a total shift in perspective that allowed me to run (actually run!) the final 4 miles and feel happy about it, whether it was going to count as a finish or not. So please let them know how much they helped me...and how much I appreciate it.

Best race I've ever done and more importantly best AID STATIONS! Thank you so much! Hope to see you again!

I just wanted to thank you again for a beautiful and tough race, it was well worth the trip from Georgia. Kudos especially to the volunteers manning those backcountry aid stations, they were great!

I just wanted to thank you for an amazing race! The course was absolutely beautiful. I could not believe how well marked it all was. The aid stations were so well stocked and the volunteers did such a good job helping us out. I can't even imagine all the work that goes into putting together a race of that distance, in such a remote area. You and your team are amazing and I am thankful for all you did to give us such a great day of trail running.

First of all, I want to extend my sincere gratitude for all of your relentless efforts & time in directing & organizing the Elkhorn races!! Once again, they were a great success & so many folks walked away with new stories to share & great memories to pass along. Thank you to you & crew!

Great day for the run Saturday. The trail was in great shape, even enjoyed the extra rocks you guys obviously carted in...lol. Thanks for all your work!

Thank You to ALL - for putting together such an Amazing Race !!! ... The Elkhorn 50 miler, definitely one ... i will never forget :D
